Word reached the Czar of Russia. The palace was alive with excitement.

They have found Noah's ark.

Oh, **Father!**

How wonderful!

Czar Nicholas ordered a scientific and military expedition to search for the ark.

At base camp near Mt. Ararat.

Our mission is to find Noah's ark.

What's that?

You dummy, don't you know about Noah?

No sir.

Well, here's what happened:

Read Genesis 5-9

A man named Enoch had a son, Methuselah.

God decided that He would destroy the earth the year Methuselah died.

Mankind was **totally** corrupted. Violence was everywhere. **God was fed up!**

Kill him!!!

God only trusted one man.

“Noah was a just man and perfect in his generations, and Noah walked with God.” Genesis 6:9

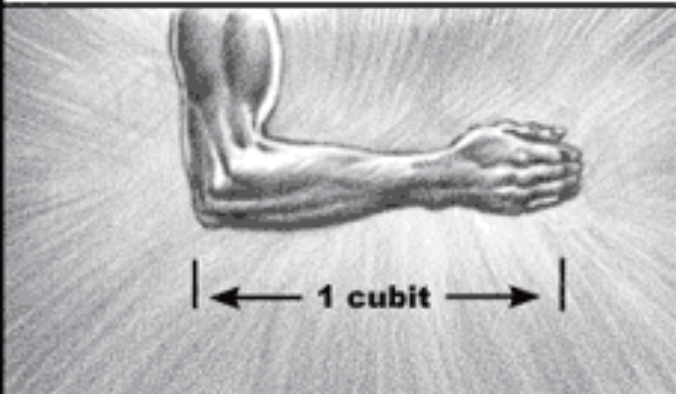

Time was running out. God decided to save Noah and his family from the coming disaster.

He told Noah to build an ark.

It was to be 300 cubits long, 50 cubits wide, and 30 cubits high, with three decks.

A cubit is about 18 inches, from the elbow to the finger tips.

Based on a cubit, the ark was about 450 feet long.

The Ark

WWII Carrier

About the size of a World War II escort aircraft carrier (CVE), Casa Blanca class.

The ark weighed about 34,000 tons.
